BOLUWATIFE URBAN KPOMASSI

SOFTWARE ENGINEER | BACKEND & FULL-STACK DEVELOPER

Lagos, Nigeria • +234 807 096 6457 • **kpomassiboluwatifeu@gmail.com** • **linkedin.com/in/boluwatife-kpomassi** • **github.com/isaacurba**

PROFESSIONAL SUMMARY

Software Engineer with practical experience building maintainable backend services and full-stack applications using **Java, Python, JavaScript, FastAPI, Node.js, Express.js, and React**. Proficient in developing RESTful APIs, modeling relational and NoSQL databases (**MySQL, MongoDB, SQLAlchemy**), implementing authentication systems, and applying Object-Oriented Programming, layered architecture, and automated testing (**pytest, JUnit**). Former IT Instructor experienced in conducting code reviews, debugging software systems, and communicating technical concepts.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript, SQL
Backend Development:	FastAPI, Node.js, Express.js, REST APIs, CRUD Operations, Layered Architecture
Databases & ORMs:	MySQL, MongoDB, SQLAlchemy, Mongoose
Frontend & UI:	React.js, Tailwind CSS, Shadcn UI, Radix UI, Context API
Auth & Security:	JWT, Appwrite Auth, Bcrypt
Testing & Practices:	pytest, JUnit, Automated Testing, OOP, SOLID Principles, Design Patterns, Agile/Scrum
Tools & Platforms:	Git, GitHub, Postman, VS Code, PyCharm

KEY PROJECTS

Restaurant Ordering System | *Python, FastAPI, SQLAlchemy, MySQL, pytest, REST APIs*

- Engineered a modular backend using layered architecture (Controllers, Services, Repositories, DTOs) ensuring clean separation of concerns.
- Designed relational MySQL schemas managing Customers, Admins, menu categories, orders, and order item associations.
- Implemented RESTful endpoints for catalog management and order lifecycle operations with structured request validation and error handling.
- Wrote automated unit and integration tests with pytest to validate domain business logic and database repository queries.

Inventory Management API | *Node.js, Express.js / Python, REST APIs, CRUD, Database Integration*

- Developed a RESTful backend API handling full CRUD operations for product inventory tracking and stock updates.
- Structured persistent data models and query logic to ensure transaction consistency during inventory modifications.
- Validated and documented API routes using Postman, establishing rigorous payload schema checks and status code handling.

LGA-Connect — Citizen & Staff Portal | *React, Node.js, Express.js, Tailwind CSS, Shadcn UI*

- Built a full-stack portal facilitating structured administrative workflows and citizen request submissions.
- Implemented token-based authentication and role-based access control to distinguish citizen and administrative privileges.
- Constructed reusable, accessible UI components with Tailwind CSS and Shadcn UI connected to backend endpoints.

PROFESSIONAL EXPERIENCE

Freelance Software Engineer | **Self-Employed** — Lagos, Nigeria | Oct 2024 – Present

- Develop web applications and software solutions based on client specifications using JavaScript, Python, Node.js, and React.js.
- Design and integrate relational/document databases, implementing secure authentication and RESTful endpoints.
- Test, debug, and optimize application logic throughout development while utilizing Git/GitHub for structured version control.

IT Instructor | **Digital Fortress** — Surulere, Lagos | Jun 2025 – Jan 2026 (8 mos)

- Taught programming fundamentals, algorithmic logic, and web development through structured curriculum and hands-on exercises.
- Reviewed, debugged, and diagnosed syntax, logical, and structural errors in student-built software applications.
- Guided students through software projects, reinforcing debugging strategies and modern development workflows.

Frontend Developer Intern | **NIIT** — Surulere, Lagos | Feb 2024 – May 2024

- Constructed responsive, reusable web components using React.js and Tailwind CSS matching technical wireframes.
- Collaborated in an Agile development environment, actively participating in sprint discussions and team code reviews.

EDUCATION, TRAINING & LANGUAGES

Software Engineering & Techpreneurship Program — Semicolon Africa

Web Development Training Program — WAVE / NIIT

English: Fluent
